

Aesculap Surgical Instruments

Permagna-Set

Extra large instruments for obese patients

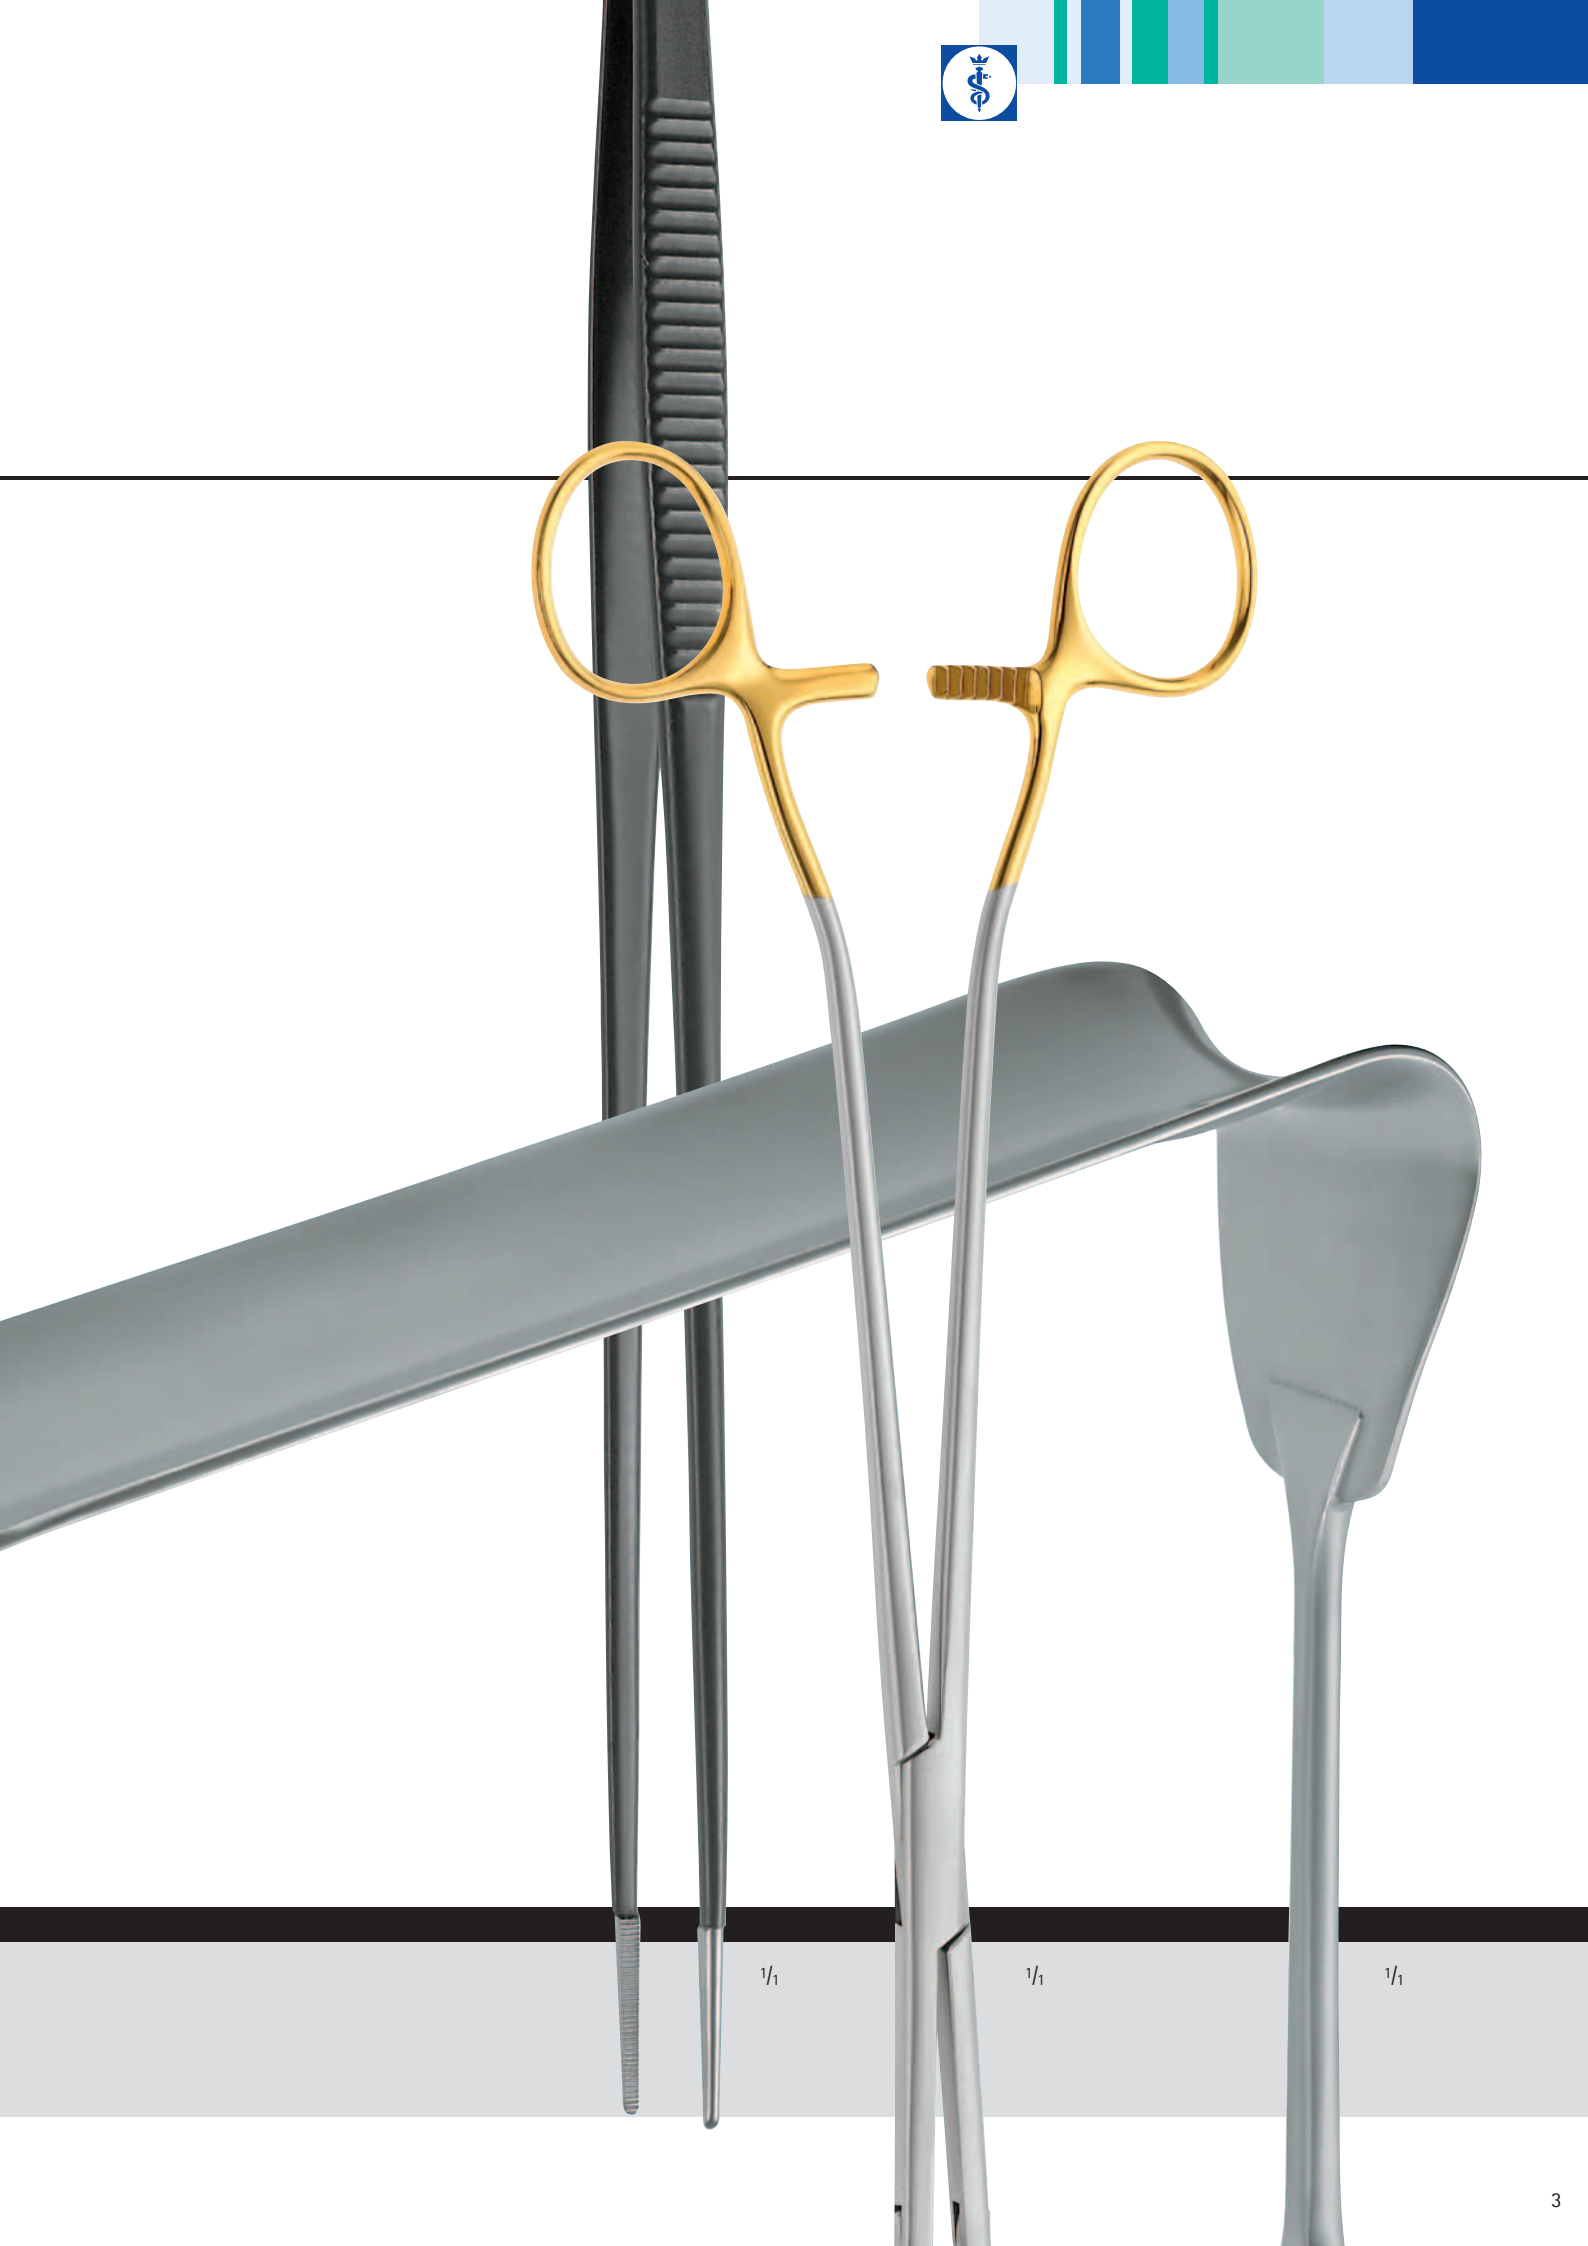

Permagna-Set

Adipositas Permagna – extreme obesity of the patients often presents surgeons with a problem: The available instruments are too short.

With the "Permagna Set" we have, in collaboration with Professor Müller of Bad Mergentheim and Professor Kieback of Aue, created a series of instruments long enough even for patients who take a size **"XXL"**.

Think Surgical Instruments. Think Aesculap.

BC298W

DUROTIP® **W**avecut ligature scissors
350 mm
14"

Especially for cutting suture materials

- Carbide inserts guarantee permanent cutting edge (also in the distal area of the blades)
- **W**avecut prevents suture materials from slipping out
- DUROTIP® ligature scissors are identified by 1 goldplated ring
